Square Integration:

Square allows for direct integration with other products including:

- Square Gift Cards: Allows customers redeem gift cards online or in your stores.
- Square Appointments: Allows you to set up a seamless way to receive appointment bookings.
- Square Invoices: Allows buyers to request custom quotes for your services.
- Square Loyalty: A digital rewards program where customers gain incentives with every purchase.
- Square Marketing: Create a marketing campaign with emails, coupons, and other resources.
- Square Online Checkout links: Create a subscription for services/donations.
- Square Risk Manager: Gain insights about fraud patterns, set rules and alerts to manage risk.

Shipping

To start setting up your shipping options:

1. Go to your Square Online Overview page
2. Select Fulfilment → Shipping
3. Confirm Shipping Address

The following are various ways to price your shipping:

Real-Time Rates	Flat Rate	Free Shipping	Order Weight	Order Total	Item Quantity
Calculates rates based on weight and destination at checkout through various carriers.	Set a single fee for shipping and charge either per item or order.	Offer free shipping based on order weight, price, or just for all orders.	Set your own rates based on the weight of all items in order.	Charge shipping based on order total.	Charge shipping based on number of items in an order.

For more information on shipping, you can visit Square Support for Shipping.

Payments

Receiving your first sale on your Square website-based shop is a milestone and a big step for your business. To start accepting payments online, you can connect with any of the following payment processors:

- **Square**
  - Square Online is automatically configured to use Square's payment processor to accept payments during the checkout.
- **PayPal**
  - With PayPal's payment processor, you will have access to a more global customer base, allowing a wider range of customers
- **Apple Pay and Google Pay**
  - Apple Pay and Google Pay can help make checking out from Square Online, particularly on mobile devices, very fast.

You can temporarily suspend accepting payments for orders from Square Online. This is helpful when you want to put your online business in vacation mode for any reason so new online orders do not come in while you are away.

Learn more about how to Accept Payments Quickly, Easily and Securely.

Building Your Square Store

Create Your Online Store:

- To build your website, there are three main areas to your builder
  1. On the left-hand side, you will see an edit panel where you can add, update, and reorder your website depending on how you see fit
     - Most of the creative work is primarily done here
  2. To the right-hand side, you can see a preview of how the website will look.
     - You can make edits to your texts to preview the website overview and filter you see fit

3. Moreover, add additional sections, pages, items, and categories at the top left of the page.
    - At the top left of the page, you can also toggle between the different viewing options such as mobile and desktop view

- Change your Main Banner Layout
    - Simply click on the part you want to edit, and the left banner will appear automatically for you
    - Click layout and choose from a range of predesigned formats
- Change your Featured Items
    - Firstly, click on the section you want to edit and the necessary banner will appear on the left
    - You can remove, reorder, or add the items you need
    - From the page section, you can easily drag and drop to reorder your featured items
    - To add a section, click add sections and scroll till you find the desired section you need

Learn more about how to Navigate the Square Online Site Editor.

Add an Item to Sell:

- On the left-hand menu, select "Items'' → "Site Items", and you will be redirected to the Item Library. Select "Create an Item" to add items manually or select "Import Items" to import a file (ex. an excel file) that has all your item information written. This will transfer that data into your online store.
- Choose the Item type (ex. prepared food and beverage, physical, event, digital, service, donation, and membership). Fill in the item's title, price (regular and sale), and description in the designated text boxes.
- On the right-hand side of the screen, use the media section to upload your product photo(s).
- Enter the type(s) of fulfillment you plan on using for your product (ex. shipping, pick-up, local delivery, and self-serve ordering), the package weight, and the pick-up/prep time.
- In the additional Information section, you have the option of adding the stock available, the SKU number, and gift options you may add to your product.

Learn more about how to Add Items and Categories to Square Online.

Preview & Publish Your Website:

- You can preview any changes you've made to your Square Online site before you make them go live. To do so, select the Preview button in the Square Online site editor.
- When you publish a website, you're making the edited version of the site go live for people browsing the internet to see. The easiest way to publish your website is to access the Square Online site editor and select the "Publish" button.
- When your Square Online site is finished publishing, you'll see a confirmation pop-up window appear with a link to your live site.
